

June 8, 2015

Dear Member of the House of Representatives:

The undersigned organizations represent a very broad cross-section of U.S. production agriculture and agribusiness. We urge you to cast an affirmative vote on H.R. 2289, the “Commodity End-User Relief Act,” when it moves to the floor for consideration.

This legislation contains a number of important provisions for agricultural and agribusiness hedgers who use futures and swaps to manage their business and production risks. Some, but certainly not all, of the bill’s important provisions include:

- Sections 101-103 – Codify important customer protections to help prevent another MF Global situation.
- Section 104 – Provides a permanent solution to the residual interest problem that would have put more customer funds at risk – and potentially driven farmers, ranchers and small hedgers out of futures markets – by forcing pre-margining of their hedge accounts.
- Section 308 – Relief from burdensome and technologically infeasible recordkeeping requirements in commodity markets.
- Section 310 – Requires the CFTC to conduct a study and issue a rule before reducing the de minimis threshold for swap dealer registration in order to make sure that doing so would not harm market liquidity and end-user access to markets.
- Section 313 – Confirms the intent of Dodd-Frank that anticipatory hedging is considered bona fide hedging activity.

Thank you in advance for your support of this bill that is so important to U.S. farmers, ranchers, hedgers and futures customers.

Sincerely,

Agribusiness Association of Iowa  
Agribusiness Council of Indiana/Indiana Grain and Feed Association  
American Cotton Shippers Association
