Gulf Compress Customers and Friends,

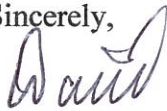

We were blessed with a good crop this year. Now our daily receiving is slowing down and we are shifting more resources toward shipping. As you know, our tariff offers Expedited Service for \$6.00 per bale (when available). We have been very limited in how much Expedited Service we could offer but can now commit to a little more.

We will now accept orders for Expedited Service (ES) at all locations, for delivery dates November 1 and later. Please call Dolores De La Garza to schedule loads for ES. The Gulf Compress calendar will continue to accept dates up to 5% of capacity per week and any additional requests will be bumped out to the next available "regular" date. When this happens you will receive an email to that effect – then you should call Dolores to schedule sooner if you wish to use Expedited Service.

We will make available an additional 1% per week as Expedited beginning November 1. We hope to be able to increase the availability more in the near future if you need it.

Thanks for your business and call any time if you have questions or comments.

Sincerely,

David Fields
President
