

1 **Futures Contracts Committee**  
2 **Adopted at the 97<sup>th</sup> Annual Convention**  
3 **May 21, 2021**

---

4  
5  
6 The Futures Contracts Committee recommends that ACSA:

7  
8 1. **MERGER OF THE CFTC WITH THE SEC:**  
9

10 Urge that the U.S. Congress continue supporting the Commodity Futures Trading Commission  
11 (CFTC or Commission) as an independent regulatory agency with full authority over all forms  
12 of futures and options trading and that the CFTC not be merged with the SEC or other  
13 regulatory agency or federal department;  
14

15 2. **POSITION LIMITS RULEMAKING**  
16

17 (a) Commend the CFTC for addressing commercial end user issues-when finalizing the rule on  
18 position limits, completed in October 2020, and continue to work with Intercontinental  
19 Exchange (ICE), other exchanges and other trade associations to highlight the issues of  
20 interest to commercial end users;  
21

22 (b) Continue to engage the Commission on specific issues that were supported by ACSA in  
23 the development of the final rule on Position Limits for Derivatives, and urge the  
24 Commission to preserve the final rule without broad change despite potential requests to  
25 revisit key themes and to maintain the following positions on policy included in the  
26 position limits rule:  
27

28 (1) *Bona Fide Hedging* – the final rule’s definition of bona fide hedging (BFH) in a manner  
29 generally consistent with the views of the commercial trade, and addressing the  
30 temporary substitute test of the BFH definition and eliminates risk management  
31 exemptions for banks;  
32

33 (2) *Anticipatory Merchandising* – the final rule’s creation of a new enumerated hedge for  
34 anticipated merchandising, noting that anticipated merchandising is defined as long or  
35 short positions that offset the anticipated change in value of the underlying commodity  
36 that a person anticipates purchasing or selling, provided that: (1) the positions do not  
37 exceed in quantity 12 months of current or anticipated purchase or sale requirements  
38 of the same commodity; and (2) the person is a merchant with a demonstrated history  
39 of such activity and that person is entering into the position solely for its merchandising  
40 business;  
41

42 (3) *Gross vs. Net Hedging* – the final rule’s clarification that market participants generally  
43 may hedge positions either on a gross basis or on a net basis, provided that the market  
44 participant has done so over time in a consistent, non-evasive manner, noting that the  
45 use of gross or net hedging applies to both enumerated and non-enumerated exemptions  
46 at the federal level;  
47

48 (4) *Enumerated Hedges* – the final rule’s expansion of the list of enumerated BFHs to  
49 include the following, with new exemptions noted in italics:

- 1 (i) Hedges of inventory and cash commodity fixed-price purchase contracts;  
2  
3 (ii) Hedges of cash commodity fixed-price sales contracts;  
4  
5 (iii) Hedges of offsetting unfixed-price cash commodity sales and purchases;  
6  
7 (iv) Hedges of unsold anticipated production;  
8  
9 (v) Hedges of unfilled anticipated requirements for processing, manufacturing, use or  
10 resale;  
11  
12 (vi) *Hedges of anticipated merchandising*;  
13  
14 (vii) *Hedges by agents responsible for merchandising cash positions*;  
15  
16 (viii) *Hedges of anticipated mineral royalties*;  
17  
18 (ix) *Hedges of anticipated receipts or payments under an executed contract for*  
19 *services*;  
20  
21 (x) *Offsets of commodity trade options that meet the requirements of CFTC Regulation*  
22 *32.3*; and  
23  
24 (xi) Cross-commodity hedges;  
25  
26 (5) *Deliverable Supply* – noting the exception of modifications related to the ICE Cotton  
27 No. 2 (CT) contract, the final rule’s adoptions of federal spot month position limit  
28 levels at or below 25 percent of estimated deliverable supply, further noting that with  
29 respect to the CT contract, ACSA was instrumental in negotiating the final rule’s  
30 adoption of a lower federal spot month position limit level of 900 contracts instead of  
31 the proposed 1,800 contracts;  
32  
33 (6) *Federal Limits* – the final rule’s settings of the spot-month, single-month, and all-month  
34 position limits, with position limits for the CT contract are as follows:  
35  
36 (i) Spot-Month Limit: 900 contracts;  
37  
38 (ii) Single-Month Limit: The greater of 5,000 contracts or 50 percent of the all-month-  
39 combined limit; and  
40  
41 (iii) All-Months Limit: 11,900 contracts;  
42  
43 (7) *Exchange-Set Limits* – the final rule’s prohibitions of exchanges from adopting position  
44 limits that are more lenient than any limit set for the same contract at the federal level;  
45 noting that exchanges may grant exemptions from the exchange-set position limits so  
46 long as the exemption is recognized by the CFTC for federal position limit purposes,  
47 for example, an enumerated BFH exemption, and urging ACSA’s continued support of  
48 the continuance of exchange set position limits at the current level of 300 contracts in  
49 the spot-month, 5,000 single-month, and 5,000 all-months limits;  
50

1 3. **HEDGE EXEMPTIONS**

2  
3 Urge the continuation of the current practice by which ICE Futures US grants hedge  
4 exemptions under the supervision of the CFTC;

5  
6 4. **RESTRICTIONS ON SPECULATIVE ACTIVITY OF INDEX FUNDS WITH**  
7 **HEDGE EXEMPTIONS**

8  
9 Support the Commission's action to eliminate Risk Management Exemptions in the final  
10 rulemaking on position limits;

11  
12 5. **SEPARATE REPORTING CATEGORIES FOR NON-TRADITIONAL HEDGERS**

13  
14 Require that all non-traditional hedge accounts, those not involved in the commercial  
15 enterprise of physically trading bales of cotton, be reported as a separate individual category;

16  
17 6. **HEDGE MARGIN LEVELS**

18  
19 Urge that only those involved in the commercial enterprise of physically trading  
20 commodities shall be eligible for hedge margin levels;

21  
22 7. **CERTIFICATION CLASSIFICATION**

23  
24 Support the continued implementation developed by the ICE Futures US Cotton Committee  
25 and approved by the Exchange Board under which bales that meet the quality and age  
26 parameters set by the Exchange can be registered as tenderable against the Cotton No. 2  
27 contract based upon the Smith Doxey classing results of the bale and without requiring  
28 certified classing of the bale;

29  
30 8. **TAXATION OF COMMODITY FUTURES TRANSACTIONS**

31  
32 Urge that the Congress maintain the IRS Code Section 1256-tax treatment of commodity  
33 futures transactions;

34  
35 9. **MARGIN FUTURES TO FUTURES & OPTIONS TO OPTIONS**  
36 **SETTLEMENTS**

37  
38 Urge the requirement that the ICE and its clearing members adhere to the practice of  
39 margining futures to futures settlements and options to option settlements;

40  
41 10. **ENGAGE ICE COTTON COMMITTEE WHEN CONSIDERING THE**  
42 **INCREASE OF SPECULATIVE POSITION LIMITS**

43  
44 Commend ICE for its collaboration with commercial participants from the cotton industry  
45 during the position limits rulemaking process, and in recognition of the verbal commitment to  
46 proceed in the following manner, request that ICE continue to engage with the ICE Cotton  
47 Committee on price discovery, non-spot month liquidity, and volatility, prior to any additional  
48 increases above current levels in speculative position limits;

1 **11. ICE NO. 2 CONTRACT**

2  
3 Urge the ICE to consider the following:

- 4 (a) That increased margin requirements not be retroactive;
- 5
- 6 (b) In accordance with ICE rules, halt options trading when the lead futures month is trading  
7 at a synthetic price that is equal to two times the daily price limit currently in effect for  
8 the lead month; and should the futures trade off the daily limit, then options trading shall  
9 be reopened;
- 10
- 11 (c) Not to increase Speculative Position Limits above the levels currently in effect unless  
12 approved by the Cotton Contract Specifications Committee;
- 13
- 14 (d) Oppose an increase in the speculative limits for the spot month pending study and  
15 review;
- 16
- 17 (e) Not to establish any additional delivery points;
- 18
- 19 (f) Not to increase the number of deliverable grades;
- 20
- 21 (g) Except with respect to registration on Smith Doxey class, not permit the practice  
22 of sampling for certification at interior warehouses;
- 23
- 24 (h) Recommend that strict standards for bale conditions be maintained and enforced;
- 25
- 26 (i) Maintain the delivery of certificated stocks via electronic warehouse receipts;
- 27
- 28 (j) Recommend that all certificated stocks show the state or area of growth;
- 29
- 30 (k) Recommend that any changes in the rules, terms, procedures, or trading practices not be  
31 instituted without prior approval of the cotton committee;
- 32
- 33 (l) Support ICE's implementation of a discount for certificated bales with GPT 25.0-25.9 as  
34 determined by AMS quoted differences;
- 35
- 36 (m) Close ICE Markets one (1) minute before and open five (5) minutes after USDA Supply  
37 and Demand and Production reports are released; and
- 38
- 39 (n) Evaluate base grade and premium and discounts;
- 40

41 **12. CUSTOMER PROTECTION**

42  
43 Urge the CFTC to maintain the policy as amended by the final rule titled "Residual Interest  
44 Deadline for Futures Commission Merchants" published on March 24, 2015 in the *Federal*  
45 *Register*, noting that this final policy has the appropriate time interval for customer margin  
46 receipt by an FCM and balances the need for customer protection without leading to prefunding  
47 of margin accounts, and noting further that this policy is less likely to result in concentration  
48 of FCM or lead to smaller FCM with less capital not being able to survive;

49  
50

1 **13. AUTOMATED TRADING**

2  
3 Urge the Commission to limit the applicability of any regulation similar to Regulation  
4 Automated Trader, which had been proposed by a previous Commission and withdrawn in  
5 2020, to true automated traders and not hedgers;

6  
7 **14. SWEET SPOT CERTIFICATION CUT-OFF DATE**

8  
9 Urge USDA to continue its analysis of potentially extending the 180-day Sweet Spot/Smith  
10 Doxey cut-off date;

11  
12 **15. ON-CALL COTTON REPORT**

13  
14 Urge the CFTC to discontinue the weekly on call reporting requirement; noting though that  
15 should the CFTC continue to find value in receiving the information provided in these reports  
16 for surveillance or other regulatory purposes, then urge the CFTC to discontinue publication  
17 of the weekly reports; noting that:

- 18 (a) ACSA’s views were presented to the Commission during the position limit debate;  
19  
20 (b) others in the cotton trade did not agree with eliminating these reports and the Commission  
21 ultimately decided to retain the report and the public release of the report;  
22  
23 (c) the final rule eliminates Form 204 and corresponding Parts I and II of Form 304 for cotton,  
24 which enable the Commission to leverage cash-market reporting submitted directly to the  
25 exchanges;  
26  
27 (d) the final rule maintains Part III of Form 304, related to the cotton on-call report, with the  
28 result that Form 304 therefore will be used exclusively to collect the information needed to  
29 publish the weekly cotton on-call report;  
30

31 **16. ASSYMETRIC “SPEED BUMPS”**

32  
33 Oppose exchanges introducing mechanisms that allow market makers any amount of additional  
34 time to modify or cancel quotes prior to an aggressing order interacting with those quotes; and  
35

36 **17. CLEARINGHOUSE MARGIN**

37  
38 Oppose efforts to force clearinghouses to amend their margin methodologies with the goal of  
39 higher minimum margin levels in periods of low market volatility.  
40
