COTTON WORKS
by COTTON INCORPORATED

Product Technologies

PUREPRESS

PUREPRESS™ is a formaldehyde-free wrinkle-resistant finish that helps cotton fabrics stay smooth, strong, and clear in color. It keeps garments looking neat with less ironing and better durability.

STORM COTTON

STORM COTTON™ technology is a durable water-repellent finish for cotton that keeps garments dry from rain and snow while maintaining natural breathability.

TOUGH COTTON

TOUGH COTTON™ technology increases durability, abrasion resistance, and wrinkle-resistance, extending garment life while maintaining cotton's comfort and breathability.

TransDRY

TransDRY™ technology is a moisture-management treatment for cotton that helps wick sweat and dry faster, offering the comfort of cotton with performance comparable to high-tech synthetics.

WICKING WINDOWS

WICKING WINDOWS™ Technology is a moisture-management finish that uses a colorless "window" print to channel sweat away from the skin and let it evaporate, keeping you drier and cooler.

REStech COTTON

REStech COTTON™ is a performance finish that dries significantly faster than rayon, feels up to 40% softer, and offers superior durability while using natural fibers.
