

1 **National Affairs Committee**
2 **Adopted at the 102nd Annual Convention**
3 **June 23, 2026**

4
5 The National Affairs Committee recommends that ACSA:

6
7 **1. COMMODITY PROGRAMS:**

- 8
9 a) Support a Commodity Credit Corporation (CCC) non-recourse marketing loan program for
10 Upland and Extra Long Staple (ELS) cotton;
11
12 b) Support the safety net of domestic support created in the commodity title of the farm bill,
13 and encourage the expansion of export market access and free trade;
14
15 c) Oppose efforts to dilute or modify the effectiveness of domestic farm policy through further
16 limitations for producer-related support programs; further, oppose any restrictions on
17 eligibility for farm program participation;
18
19 d) Encourage the U.S. Department of Agriculture (USDA) to administer the ELS Cotton
20 Competitiveness Program through the evaluation of all available quotations in order to best
21 calculate payments on the basis to competing ELS growths;
22
23 e) Regularly engage with American Cotton Producers to evaluate and advocate for farm
24 policy measures that strengthen the U.S. cotton sector and promote the interests of ACSA
25 members;
26
27 f) Collaborate with the National Cotton Council (NCC) to work with Members of Congress
28 and their staff during the development of the upcoming farm bill and other relevant
29 legislation to increase the safety net values of cotton to reflect current production costs and
30 market value;
31
32 g) Support the continuance of Special Import Quotas as part of the Special Marketing Loan
33 Provisions for Upland Cotton to ensure U.S. textile mills have adequate supplies of raw
34 cotton;
35
36 h) With regard to the Adjusted World Price (AWP),
37 i) Utilize the lowest three (3) quotations when calculating AWP;
38
39 ii) Provide flexibility in loan repayment by allowing the selection of the lowest prevailing
40 world market price during the thirty (30) days following the day on which the loan is
41 repaid;
42
43 iii) Restore storage credit values to be commensurate with current market levels;
44
45 iv) Establish a Cost to Market calculation by using the greater of a statutorily mandated
46 minimum Cost to Market or survey results; and,
47
48 v) Continue to minimize market disruptions around the announcement of Cost to Market
49 changes by providing revised survey results as soon as available but no less than ten

1 (10) business days between the announced and effective dates and publishing during
2 the month in which the loan use is the lowest;

- 3
4 i) Support the most time and cost-efficient development of procedures to ensure the full
5 utility and operations of the Marketing Assistance Loan Program for cotton in the event of
6 a government shutdown, with particular focus on establishing loan redemption procedures;

7
8 **2. CONSERVATION PROGRAMS:**

- 9
10 a) Support continued use of voluntary conservation programs that address critical resource
11 concerns through both working lands programs and easement opportunities; and,
12
13 b) Advocate for the development of conservation solutions that do not create market risks by
14 influencing production or consumption trends;

15
16 **3. CROP INSURANCE:**

- 17
18 a) Urge Congress and the USDA to continue federal support for the private sector to develop
19 a system of yield and revenue insurance that does not disrupt normal production practices;
20 and,
21
22 b) Support the swift approval and implementation of the Harvest Cost Endorsement pilot to
23 incentivize the harvest of cotton rather than its abandonment when appraisals create
24 indemnity opportunities;

25
26 **4. COTTON SUSTAINABILITY PROGRAMS:**

- 27
28 a) Encourage and support the pursuit of more environmentally sustainable practices and
29 certification programs, such as the U.S. Cotton Trust Protocol, by all members of the cotton
30 supply chain; and,
31
32 b) Urge the U.S. Cotton Trust Protocol (USCTP) to study and develop ways to create a
33 marketplace for USCTP Consumption Units that streamlines participation and develops
34 value and transparency, engaging industry stakeholders to promote adoption;

35
36 **5. IMPROVING COTTON FLOW:**

37
38 In an effort to decrease costs and increase U.S. cotton's competitiveness, urge NCC to work
39 with ACSA through all reasonable channels to develop policy and program opportunities that
40 enhance cotton flow;

41
42 **6. RECONCENTRATION OF LOAN COTTON:**

43
44 To enhance the competitiveness of U.S. cotton, urge the CCC to immediately repeal the
45 seventy-five (75) day limit on storage credits when CCC loan collateral is moved to any
46 approved CCC warehouse;

47
48 **7. MARKETING & PROMOTION FUNDING:**

- 49
50 a) Recommend the USDA make full use of the funding authorized by Congress to assist in

1 maintaining and expanding the consumption of U.S. cotton in export markets, particularly
2 through the utility of the Market Access Program and the Foreign Market Development
3 Program;

4
5 b) To address the decline in demand for cotton brought on by competition from manmade
6 fibers, work with relevant government agencies and organizations to raise awareness of the
7 positive attributes of cotton including health and environmental benefits compared to
8 synthetic fiber and further engage consumers; and,

9
10 c) Direct promotion efforts to incentivize the purchase of domestic cotton by U.S. consumers
11 and importers;

12
13 **8. BENEFICIAL INTEREST:**

14
15 Recommend members review all “Option to Purchase” contract language for conformity with
16 USDA-Farm Service Agency (FSA) regulations pertaining to “Beneficial Interest” in the
17 cotton to assure that the cotton maintains its eligibility for the loan or for loan deficiency
18 payments;

19
20 **9. SALE OF CCC OWNED COTTON:**

21
22 Urge the USDA to promptly list CCC-owned cotton for sale on The Seam’s platform following
23 forfeiture; further, recommend listings of CCC-owned cotton continue to be identifiable in the
24 platform by a distinguishable trading term to aid in offer discovery as well as public
25 transparency of pricing for concluded sales of CCC-owned cotton;

26
27 **10. CCC WEEKLY LOAN FIGURES:**

28
29 a) Urge the USDA to continue making a concerted effort to consolidate and keep CCC weekly
30 loan figures current and accurate since trading decisions are based upon this timely
31 information; and,

32
33 b) Encourage CCC to report Loan Service Agents (LSAs) and Cooperative Marketing
34 Associations (CMAs) cotton entered under Form A and Form G separately;

35
36 **11. RAW COTTON EXPORTS:**

37
38 Oppose all efforts that would restrict or limit foreign market access for U.S. raw cotton exports;

39
40 **12. BERRY AMENDMENT ENFORCEMENT AND DOMESTIC SOURCING:**

41
42 Urge the strong enforcement of the Berry Amendment requiring that all military uniforms,
43 apparel, and equipment be made in the United States; further, urge that these products are made
44 with U.S. raw cotton fiber;

45
46 **13. COUNTRY OF ORIGIN DESIGNATION:**

47
48 a) Urge the Department of Homeland Security Customs and Border Protection, United States
49 Trade Representative, Department of Commerce, and other relevant agencies to accept the
50 Permanent Bale Identification (PBI) as sufficient proof of U.S. origin for a bale of cotton;

1 and,

- 2
3 b) Urge direct collaboration between relevant agencies and the USDA to affirm the veracity
4 of PBI information;

5
6 **14. USDA-NASS REPORTING:**

7
8 Support the appropriation of funding for or administrative action to reinstate district-level
9 acreage, abandonment, and production reporting in Texas and restore cotton's Objective Yield
10 survey;

11
12 **15. FUNGIBILITY:**

13
14 Support the NCC's Joint QTF / Cotton Flow Committee's effort to enhance cotton fungibility;

15
16 **16. TRADE FLOW & CONTAMINATION:**

- 17
18 a) Urge collaboration with the NCC to continue efforts to reduce contamination of U.S.
19 cotton;
- 20
21 b) Urge members to report any incidents of contamination on the NCC website including PBI;
22 further work to develop contamination prevention technology with NCC and USDA-
23 Agricultural Marketing Service; and,
- 24
25 c) Urge the industry to establish guidelines to identify gins, where contamination is recurring;
26 further, request the National Cotton Ginners Association to conduct efforts created for the
27 detection, prevention, and elimination of various plastic contaminants in U.S. raw cotton;

28
29 **17. CMAs & LSAs:**

30
31 Urge the federal establishment of a National Lien Registry in order to minimize risk and
32 optimize time spent performing lien searches noting such tool would assist merchants, gins,
33 CMAs and LSAs as they pay for cotton, and also potentially expedite the transfer of funds to
34 growers;

35
36 **18. COTCO:**

37
38 Recognizing that the Committee Organized for the Trading of Cotton (COTCO) is the political
39 action committee of the American Cotton Shippers Association that provides member firms
40 and their employees a direct voice in the elective process, thereby meriting the full support and
41 participation of all persons who may contribute, urge that members and their employees
42 support this important endeavor that is vital to the survival of a competitive cotton market;

43
44 **19. MERCHANDISER SUPPORT:**

- 45
46 a) Urge Congress to leverage the precedent set by the support for Cotton Merchandisers
47 included in the Consolidated Appropriations Act, 2023 to develop a repeatable delivery
48 mechanism to support merchandisers of U.S. cotton in the event of future macroeconomic
49 disruptions that create market or supply chain disruptions; and,

- 1 b) In times of trade disruption and / or market distress, work with the NCC and Congress to
- 2 advocate for federal support that addresses the associated market risks and costs beyond
- 3 the farm gate;

4

5 **20. INCREASING COTTON DEMAND:**

6

- 7 a) Support the swift passage and implementation of the Buying American Cotton Act; and,

8

- 9 b) Support and promote the NCC's Plant Not Plastic initiative through our public
- 10 communications and education.
